

Getting To Know Brian the Brain

1. Key Pad Controller
2. Base Unit and Brain
3. Room Guard Sensor
4. MP3 Player Jack
5. Phone Line Jack

Be careful when removing the keypad from the base. Do not pull too hard or the cord may be damaged.

Key Pad Controller

Reset Button

Press for initial start-up, or if Brian freezes or acts erratically. This operation must be done by an adult. **Use the end of a paper clip to depress the recessed button located inside the hole.**

NOTE: Pressing the reset button will reset the password, date and time. Hold the "R" button and Reset will clear all information set before.

www.mybrianthebrain.com

1) Alphabet Buttons	Used to type in letters.
2) Volume Control Button	Press to set 1 of 3 volume settings - low, medium, high. The volume control only affects Brian's voice and not your music player or phone volume.
3) Phone Icon Button	Press to answer when Brian rings, press again to end the call.
4) Repeat Key	Press to have Brian repeat his last statement.
5) Space/Skip Bar	Use to add a space between letters or numbers, and to "fast-forward" Brian through his conversation.
6) Scroll Wheel	Use the wheel to scroll through options shown on LCD screen.
7) FUNC Button	Press to activate Brian's function mode.
8) CLR Button	Press to delete everything that you have typed in.
9) EDIT Button	Press to activate edit mode.
10) Backspace Button	Press to back up one letter at a time, clearing that letter.
11) LCD Screen	Shows information, instructions and confirms your entries and answers.
12) Number Buttons	Used to type numbers. If Brian asks you to input numbers, the keypad will automatically switch to numbers.
13) OFF Button	Turns Brian off.
14) ENT Button	Press to confirm you have finished typing in your entry.
15) SFX Button	Press to hear Brian's sound effects.

Getting Started

Turning On Brian for the First Time:

This operation must be done by an adult.

Hold down the "Q" key and push the RESET button at the same time. First, release the RESET button, and then release the "Q" key after 2 seconds.

Enter Your Name:

Brian's your new best buddy - he will ask you for your name. Type it in using the keypad controller. If he is familiar with your name, he will call you by your name. If not, he'll call you pal, buddy or dude.

Password Set Up:

Brian is password protected to make sure that it is really you that is interacting with him. He'll guide you through setting up your secret password - think of a word that is easy for you to remember. To make it easy for you to remember and for Brian to understand, use a word with just one syllable like "SMART" or "BLUE". Make sure you are by yourself in a quiet room so no one else can hear you tell Brian your password!

When Brian asks you to say your password, hold the keypad about 12" inches [30cm] from you and speak clearly but in a normal voice. Brian will ask you to repeat your password.

Brian will also ask you to type in your password. He will then ask you to type it in again for confirmation. If you want, you can type in a password that's different from the one you spoke to Brian - he'll remember both. Your typed-in password must be shorter than 16 letters.

Password Reset:

If you have forgotten your password and want to reset it, enter the following code when Brian is asking who you are: **Hold down the "Q", "SPACE/SKIP" and "P" buttons at the same time.**

Time and Date Set Up:

Brian will tell you how to set up the correct time and date.

Playing With Brian

ONCE YOU'VE ENTERED YOUR NAME, SET UP YOUR PASSWORD, AND PUT IN THE CORRECT TIME AND DATE - YOU'RE ALL SET!

Here are some hints to make sure you have the most fun with Brian the Brain. Like you, Brian doesn't like to be interrupted when he's talking. Make sure he's finished speaking before telling him what you'd like to do.

Brian's got super-sensitive hearing! Play in quiet room so he can hear your voice, and hold the keypad about 12" inches [30cm] away from you. Speak clearly and in a regular voice. If Brian can't hear you, he'll let you know and ask you to type in your response.

**REMEMBER - BRIAN THE BRAIN IS AT YOUR COMMAND!
JUST SAY "HEY BRIAN" AT ANY TIME AND HE'LL STOP WHAT HE'S DOING
AND ASK YOU WHAT YOU WANT TO DO!**

Brian will ask you questions about yourself or ask you to do things with him. Brian is very smart - he remembers things that you have told him about yourself and will talk to you about them.

Voice Recognition

Brian understands some words that you say. When he asks you to say YES or NO, he will understand you. If you would like Brian to perform one of his functions, you need to get his attention first. Just say "HEY BRIAN". He'll hear you and ask you what you would like to do.

Here are the voice commands Brian the Brain will recognize. When he asks you what you would like to do next, just say the word listed below under VOICE COMMAND. Brian's function is explained after the command word.

Hey Brian	Brian will ask what you want to do.
Yes/No	Basic answers to Brian's questions.
Repeat	Brian will repeat what he just said.
Turn Off	Brian will shut down.
Joke	Brian will tell you a joke, and ask if you want to hear more.
What Time Is It	Brian will tell you the time and date, or you can follow his instructions to set or turn off the alarm.
Info	Brian will give you information from the Britannica Concise Encyclopedia on a topic that interests you. Follow his instructions to enter the topic.
Look Up Word	Brian will search his on-board dictionary to find the definition of the word you want to know. Follow his instructions to enter the word.
Trivia Quiz	Brian will access his trivia bank and ask you a question. When you're ready to hear the answer, press the ENT button and he'll tell you the answer.
Phone Call	Brian will go into phone mode, so you can make a call by entering the number into the keypad or by accessing your contact information. You can also add, delete or change your contact information.

Play a Game

Brian will go into game mode. Follow his instructions to play one of seven different games.

Chat

Brian will chat with you.

History

Brian will give you info on "this day in history" - important events that happened on the days of the year.

Guard

Brian will go on Room Guard duty. Once activated, you have 30 seconds to leave the room. If someone enters the room, Brian will raise the alarm.

Calendar

Brian will go to your personal organizer so you can enter special activities and events. He'll remind you of these events the day before and the day they are to happen.

Music

Brian will go into music mode. Hook up your MP3 player and turn it on to hear your tunes and see a cool light show. Press the FUNC button to stop play.

SPEECH TIP: Speak at your normal voice level. If you whisper or shout, Brian will not understand.

**REMEMBER - BRIAN THE BRAIN IS AT YOUR COMMAND!
JUST SAY "HEY BRIAN" AT ANY TIME AND HE'LL STOP WHAT HE'S DOING
AND ASK YOU WHAT YOU WANT TO DO!**

IF YOU DO NOT WANT TO TALK TO BRIAN IN ORDER TO ACCESS ANY OF HIS FUNCTIONS,
OR IF BRIAN IS HAVING A PROBLEM UNDERSTANDING YOU, YOU CAN PRESS THE "FUNC" KEY
AND SCROLL THROUGH THE MENU OF FUNCTIONS.

YOU CAN ALSO TYPE IN "Y" OR "N" WHEN BRIAN ASKS YOU FOR A YES OR NO ANSWER.

**PLEASE NOTE:
EMERGENCY SERVICE NUMBERS CANNOT BE ACCESSED THROUGH BRIAN THE BRAIN.
YOU MUST USE A TRADITIONAL PHONE OR MOBILE PHONE TO ACCESS
EMERGENCY SERVICE NUMBERS.**

Friends

Up to four friends can tell Brian about themselves. Once Brian knows your friends, then he'll be able to interact with them, too. To allow your friends to talk to Brian, press the "FUNC" button and select: Add Friends. Brian will ask them for their name and a password. Passwords for friends are only typed in.

Editing

Brian knows that you can change your mind sometimes. If you would like to change an answer you gave to Brian, press the EDIT key. Scroll through the menu to find the right category, select the category, then select the specific topic and sub-topic you want to edit.
